More information available at: <http://sublettewyo.com/483/COVID-19>

## Current Situation:

Sublette County currently has 1 positive coronavirus disease 2019 (COVID-19) case. Of the 35 tests conducted in the county, results have been received for 30 patients, with 5 test results pending. Seventeen of the state's 23 counties now have confirmed COVID-19 cases, with 162 total confirmed cases, and 37 recovered cases.

This afternoon Governor Mark Gordon and Dr. Alexia Harrist extended the three Wyoming State orders until April 30th. In addition he implemented a new order today for anyone travelling back into Wyoming from any other state or county other than for work must self quarantine for 14 days.

Sublette County School Districts #1 and #9 will implement online/distance learning options beginning April 6. Each district will send notifications and updates to parents and families. On March 31, Sublette County School District #1 began accepting applications for breakfast and lunch for all students. Visit [www.sub1.org](http://www.sub1.org) for more information.

For local grocery and supply shopping, we ask the public to adhere to the following four tips:

1. Limit the number of shoppers in the stores.
2. Please have only one member from each family do the shopping. There is no need for everyone to go (exceptions include infants with a parent).
3. Follow the 6-ft physical distancing measure in lines and aisles.
4. Refrain from shopping daily. Instead, plan to gather enough for one week at a time if possible.

In addition, please follow these guidelines for visits to your local post office:

1. Please DON'T come inside if you are sick.
2. Practice physical distancing by keeping at least six feet from others, and stay behind yellow line.
3. ONLY 2 persons inside the post office counter area at a time. Wait outside for your turn.
4. DO NOT socialize in the lobby area with others.

We want to remind the public that patients who do test positive for COVID-19 should not be stigmatized, and that the medical status of an individual is a private matter protected under federal law. Those who test positive for the disease, as well as those self-isolating or quarantined, should be treated with respect, compassion, and dignity.

Local businesses have continued to contact us with updates on their operation modifications and/or closures (see attached business closure list). Many restaurants continue to provide take-out, curbside, and delivery, so please support these businesses if you are able. Also, many other businesses cannot remain open and also need our support and understanding during this difficult time as well.
